Bradi's evaluation

It was such a great experience, I'm so glad I went.

A personal opinion in school was that being with another person made it so much better. I felt so much more comfortable knowing that I could talk to Simon every now and again, and that I wasn't alone. Some others didn't really like their time at school as they were alone.

The elementary school visit was very cute but got a little boring towards the end. Hiroshima was really good, the museum was definitely one of my favourite activities. It was so depressing to see, the atmosphere was so dead, but it was so good to learn about, really inspiring.

Personally I think the Korakuen gardens were a waste of time because we can see things like that any day in Christchurch.

The amusement park was awesome! It was good that there weren't many other people visiting at the time. We needed a little more time at Aeon, though. Other than that, the trip was really good and a great opportunity for my first O.E. Thank you for all the effort you put into it.
